2. Tenders should be addressed to the Executive Engineer, Honnemaradu Survey Division, Jog, and superscribed over the cover as "Further protective works to ½ to 1 hill slope."

3 Tender forms with abstract quantities are obtainable from the Office of the Executive Engineer, Honnemaradu Survey Division, Jog, on payment of annas four (0-4-0) per form.

4 Each tenderer must deposit the earnest money noted against the above respective works in cash and enclosure the receipt along with the tender.

5 The earnest money in cash should be remitted at the Office of the Executive Engineer, Honnemaradu Survey Division, Jog. The earnest money so paid will not carry any interest. No cheques will be accepted. On acceptance of tender, a further deposit of 5 per cent on work bills will be reserved and refunded to the contractor when the work is completed and conditions of agreement are fulfilled.

6 Only labour charges for each item as per unit fixed should be quoted. Such rate should include quarrying stones, conveying to site, dressing the stones and scaffolding etc. Other materials such as cement and sand will be supplied by the department without recovery of cost.

7 Plans and estimates for the works will be available in the Division Office for information on all working days between 11 A.M. and 5 P.M.

8 Final acceptance or rejection of the tender will rest with the Chief Electrical Engineer to Government, Electrical Department. The successful contractor should bind himself to the departmental rules and execute necessary agreement before starting the work.

9 The work should be completed in all respects to the complete satisfaction of the departmental officer by the end of March 1954.

10 The name of successful contractor will be intimated immediately on receipt of communication from the Chief Electrical Engineer in Mysore.

11 The successful contractor should make his own arrangements to convey materials such as sand, cement and jelly to the workspot. Materials such as cement and sand will be made available either at the Generating Station or at the place that may be fixed by the departmental officers during execution of work.

12 Water supply arrangements will be made by the department and watering masonry or concrete will be done by the departmental agency.

13 Adequate arrangements for proper scaffolding in the steep slope on the lines of instructions of the supervising officers should be made by the contractor *at his own cost.* No scaffolding materials will be supplied by the department. The scaffolding will have to be dismantled and the site cleared when the work is completed,

14 Damages caused to pipe lines or to any other property either during the time of conveyance of materials, construction of masonry, etc., will have to be made good by the contractor.

15 Quantities of each item of work are only approximate and subject to alterations during execution. The rates quoted by the contractor should hold good for any quantity. Besides, change of specifications due to exigencies, will not, under any circumstance, entitle the contractor to claim rates higher than those already tendered and accepted. In the case of non-tendered items, the contractor will be paid at the current schedule of rates or at the rates fixed on the basis of data and approved by the competent authority.

16 No claim shall be established for the delay caused by the department due to unforeseen causes during execution of work. However, extension of contract period will be considered on the merits of each case.

17 No conditional clause while tendering the rates will be accepted by the department.

18 Sales-tax will have to be paid by the contractor as per rules.

19 Royalty, etc., will be recovered from the work bills of the contractor.

20 Accidents caused to the labourer on work will entail the contractor to pay necessary compensation as may be fixed by the departmental officers or any other competent court.

21 Sales-tax clearance certificate will have to be produced along with the quotations.
